

Assignment - Styling Three Web Pages

Exercise

Task description

Your task is to style using CSS three simple web pages prepared in HTML: the product page, which displays a product with image, name, price and buy button; the checkout page, which contains a form for entering the buyer's data and confirming the order; and the welcome back page.

The goal of this task is for participants to practice using CSS selectors, applying colors, fonts, borders, padding, and borders, as well as arranging elements using Flexbox or grid, thus developing a sense of visual hierarchy and user interface.

The result of the pregnancy should be similar to the pictures below:

Designed and developed by: ITAcademy

1. Style your product page – apply basic CSS selectors to add colors, fonts, and element layout.
2. Style the checkout page – form the form using margins, padding, and borders; Pay attention to the arrangement of the input fields and the confirmation button.
3. Style the login page – add background, center the main content, apply matching fonts, and style the button.
4. Consistency – make sure that all three pages use the same color palette, fonts, and basic style so that they look like part of the same site.

Evaluation process

The course coordinator will check the paper and provide you with feedback within 24 hours. If you receive feedback and recommendations, you'll only edit and resubmit your work once.

Evaluation criteria

The evaluation is based on the following key criteria:

- applying CSS selectors and styles;
- arrangement of elements and hierarchy;
- aesthetics and visual consistency;
- the quality of styling of individual components;
- functionality of the elements;
- creativity and additional values.

Sending the task

After you complete the assignment, upload the work in ZIP format on the same page where the assignment description is located.

Save the file with the task named: nume_prenume_assignment03.zip

The maximum file size that can be sent in this way is 50 MB. If the file exceeds this size, use the WeTransfer website.

How to use WeTransfer

1. Go to the wetransfer.com website.
2. Click on "Add your files" and select the files you want to send – the archived file is mandatory.
3. Enter your email address.
4. As a title, enter the name of the file with the task.
5. In the message, it is mandatory to mention: the name, surname, and name of the course.
6. The deadline for downloading the file is three days.
7. Tap on the three dots and select the "Create link" option.
8. Then tap on "Get a link."
9. Enter the verification code received on your email address.

10. You send the resulting download link to the course coordinator on the assignment submission page.
